**October 30, 2018 Release**

Methodological notes:

- Survey results are based on national samples. For further details on sample designs, see [Methodology](#) section and our [international survey methods database](#).
- Due to rounding, percentages may not total 100%. The topline “total” columns show 100%, because they are based on unrounded numbers.
- Not all questions included in the Fall 2017 survey are presented in this topline.
